

Library vision

BNCA Library envisages to be a pleasant ambient study space and 'Library without Walls', with an e-environment accessible to registered users, regardless of their physical location, should be able to use all library resources and services.

Objectives

- To set up a leading world class international library and learning resource service, serving as a model for future academic library developments
- To upgrade and improve BNCA library, its systems and operations at par international standards and hi tech practices
- To give right to every student and faculty member to access to all learning resources.
- To develop an in – depth, archival collection and documentation of all academic activities
- To make past academic work accessible to students, faculty and researchers for research, documentation and benchmarking
- To develop widest possible use of networked electronic information resources
